

## 2.5 Million Pound Tension / Compression Bending Frame

### Specifications:

- Max Tension Capacity = 2,500,000 lbs.
- Max Compression Capacity = 1,250,000 lbs.
- Max Bending Capacity = 200,000 ft. lbs.
- Max Stroke = 12 inches
- Max Sample Length = 8.5 feet

### Applications:

- Combined Load Testing of OCTG Casing Connectors to 11-7/8" Pipe
- Proof Testing of Drilling Equipment
- ISO 13679 Test Procedures & Special Oil Company Procedures
- Load and Failure Test of Large Diameter Studs and Bolts
- Load Testing of Downhole Tools
