

2 Million Pound Test Frame

Specifications:

- Max Tension Capacity = 2,000,000 lbs.
- Max Compression Capacity = 2,000,000 lbs.
- Max Bending Capacity = 120,000 ft. lbs.
- Max Stroke = 60 inches
- Max Sample Length = 50 feet

Applications:

- Single or Multiple OTCG Casing Connection Testing to 14" Pipe
- Fatigue Testing of Composite Pipe
- Fatigue Testing of Mooring Ropes
- Proof Testing of Drilling Equipment
- Functional Testing of Chain Jacks
- Umbilical Testing
- Proof and Failure Testing of Hoses
