

## 4 Million Pound Test Frame

### Specifications:

- Max Tension Capacity = 4,000,000 lbs.
- Max Compression Capacity = 3,000,000 lbs.
- Max Bending Capacity = 500,000 ft. lbs.
- Max Stroke = 36 inches
- Max Sample Length = 27 feet

### Applications:

- Single or Multiple Casing Connection Testing to 24" Pipe
- ISO 13679 Test Procedures & Special Oil Company Procedures
- Drilling Equipment Proof Testing of Hooks, Blocks and Swivels
- Load Testing of Riser Connections
- Load Cell Calibration
- Load Testing of Downhole Tools
