

# High Pressure / High Temperature

## Combined Load Testing:

- Up to 6,000,000 lbs. tensile and 4,700,000 lbs. compression
- Bending up to 1,000,000 ft. lbs.
- Internal (gas) pressure up to 32,000 psi
- External (liquid) pressure up to 20,000 psi
- Temperature up to 700 ° F

## Pressure Testing:

- Over 32,000 psi gas / 50,000 psi liquid

## Temperature Cycling:

- From -100° F to over 700° F
