

## Naval Architecture Job Posting

**Date:** 8/11/2011

**Job Division / Location:** Houston, Texas

**Description:** Seeking entry-level naval architects/ocean engineers for our Floating Production Systems Practice. This portion of our business is concerned with design and analysis of floating oil and gas production and drilling facilities and the pipelines and risers that serve them for water depths up to 10,000 feet and beyond.

**Experience:** Applicants must possess a minimum B.S. degree (M.S. or PhD preferred) in Naval Architecture or Ocean Engineering from an ABET accredited school. In addition, applicants must have a strong background in General Stability Theory, Fluid Mechanics, Dynamics and Vibrations; a background in Solid Mechanics is a plus.

Interested applicants should forward their resume and cover letter to:
