

## Engineering Technologist Job Opportunity

**The Mohr Engineering Division** of Stress Engineering Services, Inc. seeks entry level Engineering Technologists to support its Testing Laboratory. Applicants are **required** to have a B.S. degree in Engineering Technology from an ABET accredited school. In addition, successful applicants must have a good mechanical background with the ability to successfully manipulate both small and large equipment. Knowledge of data acquisition, transducers, and basic D.C. circuits is also required.

The Mohr Engineering Division is an employee owned, fully-integrated engineering firm with a dedication to quality, safety and innovation. Since our inception over a quarter of a century ago, we have positioned ourselves as leaders in Industrial Testing, Mechanical Design, Product Development and Engineering Consulting. For more information on Mohr Engineering, please visit our website at [www.mohreng.com](http://www.mohreng.com).

Interested applicants should forward their resume and cover letter to:

[laurrie.cordes@stress.com](mailto:laurrie.cordes@stress.com)

(Preferred method for submission  
of resume and cover letter.)
